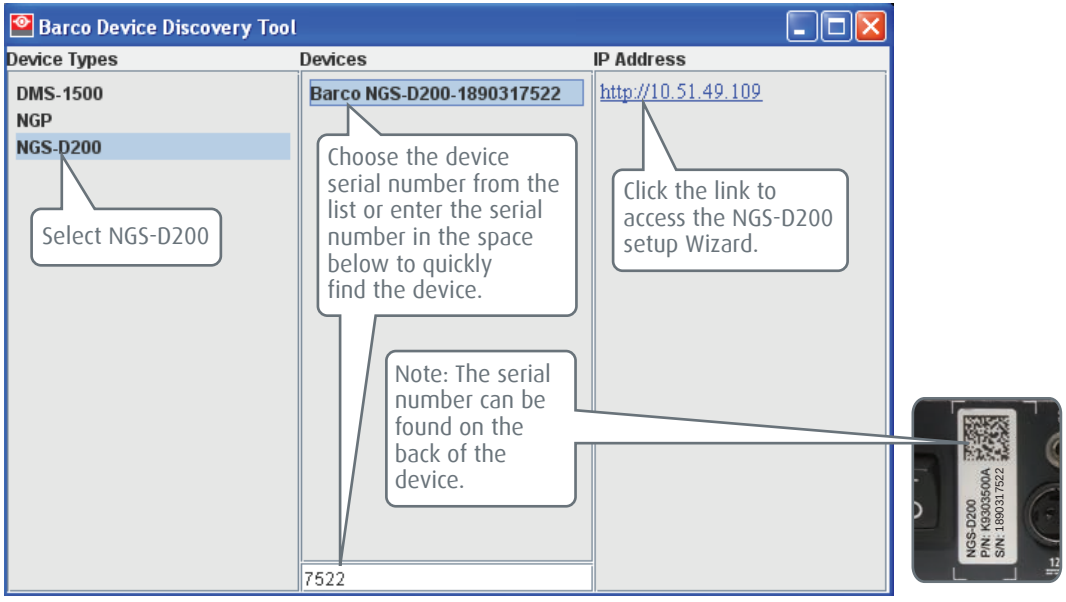
NGS-D200

Quick Start Guide

2 Locate the device on the network

Device Discovery tool

The Device Discovery tool can be found at **http://www.barco.com/networktools**



What's in the box?

The following equipment is shipped with the NGS-D200 unit:

1. NGS-D200
2. Power cord for Europe
3. Power cord for USA
4. 12 V DC power supply
5. SD card

NOTE: If any accessories are missing or damaged, contact Customer Support for an immediate replacement. Do not place any weight on top of the unit. It is not designed to support weight and internal components can be damaged if objects are placed on top of it.

3 Setup Wizard

What you'll need
